

We are pleased to introduce you us!

PLATTON

Our company is heavily involved in all niches of global supply chain and is looking for new PARTNERS to help expand their business and provide the best AI-based, most innovative and economically efficient logistics solutions.

Why Platton?

Why should you give us an opportunity? Why you need to work with us? Since especially there are such tremendous number of established companies that you're already working with. But what about the innovation, extras, and also the things that you care the most: the cost and on time service? We understand this very well and that is why we are here! With us you will have reliable business partners that will provide you with an opportunity to get the most innovative technical support that will help you maximally automize and make your process of moving your cargo much more efficient for NOT the same, but for a lesser cost.

Who are Platton?

We are global supply chain solutions company that based of Washington that consist of young highly inspired and STEM educated individuals that can help you solve and provide better solutions for your logistics needs. We have 6 warehouses in Seattle and over 100 asset trucks throughout the nation and in addition to this, a large base of connection with more than 1,600 warehouses across the North America that have been working with us for years to help us grow our own business.

**MY TASTES ARE
SIMPLE: I AM
EASILY SATISFIED
WITH THE BEST.**

—Winston S. Churchill
